Additional descriptive comments on figurative or decorative portion of the exterior:

Fragment of the right side of a cheek, with earspool and piece of a headdress. There is a break on the righthand edge that might have been an eye. ~~was~~ The earspool is perfectly round, and the piece of headdress is flat across with slanted incisions. While the edges of the artifact are quite eroded, ^{with an excised center} strangely, wiping marks from smoothing are clearly visible on both the front and back. The back of the face is ~~not~~ undecorated. This figurine seems to have been hollow, when complete.

The item is: not eroded - slightly - moderately - very - extremely eroded.

It: has - does not have other damage. Describe:

Not drawn - drawn. Where? on back.

Comments: 5YR 7/7 = Munsell
